PROFILE SUMMARY

Final-year Electronics and Communication Engineering student with hands-on experience in software engineering, full-stack web development, and UI/UX design. Strong foundation in SDLC, Agile workflows, and end-to-end application development, including requirements gathering, design, implementation, testing, and deployment. Skilled in building secure, scalable web applications using React.js, Node.js, MongoDB, and SQL, with a solid understanding of user-centered design principles. Known for a collaborative mindset, clean implementation, and the ability to bridge design and development effectively.

SKILLS

- **Programming & Web:** JavaScript, C++, Java, SQL, Python (basic), HTML, CSS
- **Frontend:** React.js, Angular, Responsive Design, UI Integration
- **Backend & Database:** Node.js, Express.js, MongoDB, SQL, REST APIs, JWT Authentication
- **Tools & Platforms:** Git, Docker, Postman, VS Code, Figma, Canva
- **Engineering Practices:** SDLC, Agile, Testing, Debugging, Code Reviews, Documentation
- **UX/UI:** Wireframing, Prototyping, Usability testing, Design systems

EXPERIENCE

Intern Trainee – Variac Electricalss May 2025 - Jun 2025

- Conducted usability testing and customer research to improve an existing web application.
- Designed responsive UI prototypes and supported implementation discussions.
- Improved navigation clarity and content structure using data-driven insights.

UI/UX Design & Development Intern – ZettaStacks Pvt Ltd May 2024 - Jul 2024

- Worked across requirements gathering, UI design, and development workflows under SDLC and Agile practices.
- Designed and prototyped the Admin’sHub HR dashboard using Figma.
- Collaborated with developers during design-to-implementation phases.
- Contributed to testing, documentation, and iterative feedback cycles.

Joint Secretary – KNOCKIA (department student association) Jul 2024 - Nov 2025

- Coordinated academic and technical events, supporting planning, scheduling, and cross-team communication among students and faculty.
- Developed leadership, documentation, and organizational skills by managing responsibilities, resolving issues, and ensuring smooth execution of departmental activities.

Department Event Coordinator – AVANTAA’24 (National Level Tech Fest) Oct 2023 - Mar 2024

- Part of the core organizing team responsible for planning and coordinating a national-level tech event.
- Managed event operations, participant coordination, and cross-team communication to ensure successful execution.

Student Intern – Enthu Tech Mar 2022 - Apr 2022

- Built IoT prototypes using Arduino and sensors.
- Debugged hardware-software interactions and documented procedures.
- Gained early exposure to system integration and testing practices.

Class Committee Member	Nov 2022 - Oct 2023
- Completed structured training focused on discipline, teamwork, leadership, and time management. - Demonstrated commitment, resilience, and the ability to perform under structured and high-responsibility environments.	
National Cadet Corps (NCC) - Certified Cadet	Aug 2017 - Mar 2019
- Acted as a communication bridge between faculty and students for academic coordination and issue resolution. - Assisted in organizing class-level activities, schedules, and discussions, ensuring smooth academic workflows.	

PROJECTS

BooringGames - Web Platform HTML, CSS, Java Script	Feb 2025
- Built a responsive game portal integrating multiple embedded games. - Optimized frontend performance and ensured cross-browser compatibility.	
Admin'sHub - HR Dashboard (UI + System Design) Figma, SDLC	Jun 2024
- Designed an HR dashboard supporting task scheduling, interview tracking, and data visualization. - Applied UX principles, prototyping, and documentation aligned with SDLC practices.	
SnapMusic - Full Stack Web Application React.js, MongoDB, Node.js	Sep 2024
- Developed a full-stack music application with secure JWT authentication. - Integrated external APIs and implemented search and playlist features. - Followed Agile iterations and focused on maintainable, scalable code.	
Gradient Backgrounds - Web Platform HTML, CSS, Java Script	Aug 2023
- Built a responsive platform where users can browse through predefined gradient backgrounds to choose from. - Supports multiple gradient directions with real-time preview. - Users can copy the gradient colors and use it for thier requirement.	

EDUCATION

Bachelor's - Electronics and Communication Engineering Sri Krishna College of Technology, Coimbatore	May 2026
--	----------

CERTIFICATES

Docker Essentials - IBM (in progress)
Fundamentals of User Experience Design - Google
TCS NQT (Cognitive) - TCS iON
Software Development Life Cycle (SDLC) - LinkedIn
Advanced Prompt Engineering Techniques - LinkedIn
C++ Development - LinkedIn
Workshops - Petrichor'23 & '24, IIT Palakkad
International Conference - Hindustan College of Engineering
